You may have heard about Medicare's prescription drug coverage, and wondered how it would affect you. Medical Mutual has determined that your prescription drug coverage with Huron-Erie School Employee Insurance Association is, on average for all plan participants, expected to pay out as much as the standard Medicare prescription drug coverage will pay.

Since January 1, 2006, prescription drug coverage has been available to everyone with Medicare through Medicare prescription drug plans. All Medicare prescription drug plans provide at least a standard level of coverage set by Medicare. Some plans might also offer more coverage for higher monthly premiums.

Because your existing coverage is on average at least as good as standard Medicare prescription drug coverage, you can keep this coverage and not pay extra if you later decide to enroll in Medicare coverage.

People with Medicare can enroll in a Medicare prescription drug plan from October 15, 2011 through December 7, 2011. However, because you have existing prescription drug coverage that, on average, is as good as Medicare coverage, you can choose to join a Medicare prescription drug plan later. Each subsequent year, you will again have the opportunity to enroll in a Medicare prescription drug plan between October 15th and December 7th.

If you do decide to enroll in a Medicare prescription drug plan and drop your Huron-Erie School Employee Insurance Association prescription drug coverage, be aware that you may not be able to get this coverage back.

If you drop your coverage with Huron-Erie School Employee Insurance Association and enroll in a Medicare prescription drug plan, you may not be able to get this coverage back later. You

should compare your current coverage, including which drugs are covered, with the coverage and cost of the plans offering Medicare prescription drug coverage in your area.

You should also know that if you drop or lose your coverage with Huron-Erie School Employee Insurance Association and don't enroll in Medicare prescription drug coverage after your current coverage ends, you may pay more to enroll in Medicare prescription drug coverage later. If after December 7, 2011 you go 63 days or longer without prescription drug coverage that's at least as good as Medicare's prescription drug coverage, your monthly premium will go up at least 1% per month for every month after December 7, 2011 that you did not have that coverage. For example, if you go nineteen months without coverage, your premium will always be at least 19% higher than what most other people pay. You'll have to pay this higher premium as long as you have Medicare coverage. In addition, you may have to wait until next November to enroll.
